

Heat Pump  
SP15AY

# SIMPLE COMFORT FOR EVERY SEASON

## VANTIX®

### Sure Comfort® Vantix® Line

Get smart, hassle-free comfort season after season with the ENERGY STAR® certified Sure Comfort Vantix Line SP15AY Heat Pump. It offers super-efficient technology to keep energy bills low and home comfort high.

# VANTIX®

## Innovation You Can Count On

Patented industry-first features and advanced design make the Sure Comfort Vantix SP15AY a smart choice.

### FEATURES AT A GLANCE

Cooling & Heating Efficiencies Up To:  
16 SEER2 / 11.7 EER2 / 8.1 HSPF2

Refrigerant Type: R-454B

Nominal Sizes: 1.5 to 5 Tons

Cooling & Heating Capacities:  
17.1 to 57 kBTU

EcoNet® Enabled: No

Sound Rating<sup>3</sup>: As low as 73 dB

Compressor Type: Two-Stage

Condenser Coil Type: 7mm

### FEATURE HIGHLIGHTS

**Expanded Valve Space:** Provides a minimum working area of 27-square in.

**Easy Service Access:** 15 in. wide industry leading corner service access, two-fastener removable corner and easily removable wire grille

**Refrigerant Detection System™<sup>6</sup>:** Integrated, patented design providing system protection and homeowner peace-of-mind with low GWP refrigerant monitoring

#### Limited Warranty<sup>1</sup>:

Conditional Parts – 10 Years  
(registration required)

#### Peace-Of-Mind Performance

Relax, you're covered by one of the best warranties in the industry<sup>1</sup>—10 Year Conditional Parts.

#### Lower Environmental Impact

The 7mm condenser coil reduces the amount of refrigerant required by up to 15%, lowering the amount of greenhouse gases emitted while contributing to our sustainability goal of a 50% reduction in our greenhouse gas footprint by 2025. A win for all of us.

#### Reduced Emissions

Households generate 72%<sup>2</sup> of greenhouse gas emissions, so switching to a heat pump can make a big difference for the environment—today.

#### High-Strength Curb Appeal

The wire grille provides excellent protection to internal components, while modern cabinet aesthetics, including the corrosion-resistant composite base pan and powder coat paint system, allow your unit to put its best face forward for years to come.

#### Quiet Operation

Efficient home comfort shouldn't be noisy. That's why our air conditioners are designed with acoustics in mind. Integrated sound-dampening features such as refrigerant tubing design, fan blade approach, composite base pan and innovative compressor and drive technologies let you enjoy more efficiency—and less noise.

#### SOUND RATING<sup>3</sup>

THIS MODEL

#### Among Heat Pumps, This One's A Star<sup>4</sup>

Earning ENERGY STAR® recognition means products meet strict energy efficiency guidelines set by the U.S. Environmental Protection Agency. ENERGY STAR certified heating and cooling equipment can enhance the comfort of your home while saving energy—which saves money on utility bills and protects our climate by reducing harmful carbon pollution and other greenhouse gases.

#### Designing for Sustainability with Low GWP

For 2025, the Environmental Protection Agency (EPA) has set a global warming potential (GWP) limit of 700 for refrigerant used in heating and cooling systems. This new requirement will result in a 78%<sup>5</sup> lower GWP than previous-generation refrigerants—with only minimal changes to system installation. For us, this is another step toward our continued sustainability goal of reducing greenhouse gas emissions, while still delivering an exceptional level of energy efficient, dependable comfort.

SureComfort.com

### A History of Innovation

We are proudly backed by nearly 100 years in the HVAC industry. We continue to give homeowners and business owners the innovative products that meet their needs and budget to keep people comfortable day after day—just as we've done for nearly a century.
